WILLIAM BLAIR

Supply Chain & Cybersecurity

✉ willblair47@gmail.com | 🌐 williamcblair.com

EDUCATION - B.S. in Supply Chain Management
Arizona State University | Expected Graduation: May 2027

PROFESSIONAL EXPERIENCE

Logistics Coordinator - *Ford Motor Company | 2023-2024*
- Managed vehicle inventory and logistics operations for high-volume dealership
- Maintained detailed inventory tracking systems
- Collaborated with service teams to optimize vehicle processing workflows

Simulated Incident Response Lead - *Cybersecurity Training Program | 2025*
- Led comprehensive incident response simulation using NIST Cybersecurity Framework
- Developed incident documentation and post-breach analysis protocols
- Implemented risk assessment procedures

TECHNICAL PROJECTS
ExamSim.io AI Study Application
- Built web app generating 20+ practice questions in under 30 seconds
- Integrated Gemini 3.0 API for intelligent document analysis

"Morning Brief" News Automation Engine
- Engineered automated news aggregation from 5+ RSS sources
- Implemented Google Cloud Text-to-Speech API for audio conversion

---

CORE TECHNICAL SKILLS
Cybersecurity & Risk Management
- NIST Cybersecurity Framework, Incident Response, Threat Detection, Vulnerability Assessment

Development & Automation
- TypeScript, HTML/CSS, React Native, Chrome Extension Development, N8n Workflow Automation

APIs & Integration
- OpenAI API, Google Cloud APIs, REST API Integration, JSON Processing

Logistics & Operations
- Supply Chain Security, Process Optimization, Risk Assessment, Inventory Management

---

CERTIFICATIONS & ACHIEVEMENTS
Google Cybersecurity Certificate | 2025
- 180+ hours comprehensive training in incident response, threat detection, and security frameworks

TryHackMe Diamond League | 2025
- Top 3% global ranking through 110+ realistic security challenges and penetration testing

Athletic Achievements
- TaeKwonDo Black Belt • Marathon Finisher (26.2 miles)

PROFESSIONAL AFFILIATIONS
Member, Supply Chain Management Association | Arizona State University | 2023 - Present
Active participant in professional development and industry networking

Member, ASU Hacking Club | Arizona State University | 2026 - Present
Student-led cybersecurity and ethical hacking community. Participating in weekly Capture The Flag (CTF) competitions, Learning offensive and defensive security techniques, and collaborating with peers on security research projects
